Agency: Government Printing Office

Office: Acquisition Services

Location: Acquisition Services

Please know that the Law Library Microform Consortium (LLMC) is committed to a partnership with Internet Archive in response to the above-mentioned government content proposal.

Internet Archive expertise and resources complement those contributed by LLMC. While LLMC has more than 30 years' experience in working with legal and government content, including digitization and online access via its service LLMC-Digital, LLMC values the breadth and depth of experience and resources provided by Internet Archive.

In addition, we are confident that the collaboration of these two nonprofit organizations will be attractive to foundations and other entities necessary for funding such an expansive undertaking.

Kathleen Richman
Executive Director LLMC
